

Helping you grow your business and achieve your community lending goals

FHLBank Atlanta's Affordable Housing Program (AHP) General Fund provides funding to develop or rehabilitate housing that is affordable to low- and moderate-income families. Real estate developers partner with financial institutions like yours to apply for up to \$500,000 per project to help finance the construction of apartments, supportive housing, subdivisions, single-family homes, and more.

By participating in AHP General Fund projects, your institution can generate new business with developers and other stakeholders while achieving your affordable lending mission and/or compliance goals related to the Community Reinvestment Act (CRA).
