

## Learn More About How You Can Use CIP and EDP Advances to Support Your Community

During uncertain times, communities turn to their financial institutions for a sense of support and stability. You can provide that support and stability through our [Community Investment Program \(CIP\) and Economic Development Program \(EDP\) advances](#), which can now be used to fund loans for businesses that are eligible for the Paycheck Protection Program (PPP), even if the business did not receive PPP funds.

We invite you to join us for a webinar exploring the details of this temporary expansion, including how long the opportunity will last and how and where you can leverage the funding.

Don't miss this opportunity! We hope to see you there virtually. View the full event agenda [here](#).
